Inside Diameter:

110.0 millimeters

Overall Diameter:

120.0 millimeters

Capacity Rating:

1000.0 milliliters

Closure Type:

Screw cap

Features Provided:

Autoclavable and chemical resistant

Product Name:

Ds2113 straight-sided jar

Special Features:

Suited to handle concentrated acids, highly corrosive liquids, oxidizing agents, solvents, and sensitive reagents; -270 to 250 c operating temp; 1 per pkg

Color:

Clear

Material:

Plastic tetrafluoroethylene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T116-b
