Storage Temperature Range:

+0.0/+7.0 degrees celsius

End Application:

6630-01-574-0337 reader, digital, test strip, rapid assay

Approximate Shelf Life:

6.0 months

Product Name:

Charm mrl aflatoxin test 20s

Special Features:

No sample preparation required; uses a 40 degree c incubator; test results are read by end item reader, digital, test strip, rapid assay, 6630-01-574-0337; reader provides an accurate interpretation of milk containing 50 ppt aflatoxin m1; kit code: farm; includes poly pipettes; 20 tests per kit

Functional Description:

Rapid one step assay used to quantify aflatoxin m1 in raw milk

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
