Mass Selective Filament Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6640-01-583-6716

End Application:
Gas chromatography
Product Name:
Msd filament assembly
Special Features:
Ci ion source (untested) filament assembly for the mass selective detector on a gas chromatography instrument
General Description:
Ion source filament emits electrons when heated by the emission current; emitted electrons ionize the sample molecules
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
