Product Name:

Analyzer, clinical chemistry

Special Features:

Item: microwave moisture/solids analyzer, features: samples reach optimal drying temp in 5 seconds, adjust incoming line voltage, normalizing fluctuations and providing repeatable test, continuous weighing during drying, dual monitoring of temp and weight, works in several languages, can be used in wastewater application

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T269-e
