Overall Height:

22.000 inches

Overall Length:

14.200 inches

Overall Width:

7.900 inches

Inside Width:

5.900 inches

Inside Length:

6.300 inches

Inside Depth:

5.100 inches

Operating Temperature Range:

-20.0/+100.0 degrees celsius

Capacity Rating:

4.5 liters

Thermoregulator:

Included

Cooling Coils For Below Room Temperature Use:

Included

Product Name:

Refrigerated/heating circulator

Special Features:

Led display; refrigerant: r134a; temperature control: pid; pump capacity (pressure): 3.3 to 6.5 psi; pump capacity (flow rate): 11 to 16 lpm; digital interfaces: rs232; weight: 51 lbs; temperature stability: +/- 0.02 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T269-j
