Unpackaged Unit Weight:

32.000 pounds

Product Name:

Rapidtrace spe workstation

Special Features:

Closed platform; modular; accomodates 3ml industry standard spe cartridges; capable of processing up to 100 samples in two hours, unattended; mixing chamber allows mixing of reagents in a method; eight reagent lines; four waste lines for segregating waste materials; dimensions: 21.5 in x 4 in x 23 in; power requirements: 100 to 240 vac plus or minus 10 pct, 50 to 60 hz

Functional Description:

Designed to maximize sample preparation and cleanup steps prior to analysis by liquid chromatography-mass spectrometry or gas chromatography-mass spectrometry

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
