End Application:

Fmj-250 high pressure syringe

Product Name:

Microsprayer aerosolizer model ia-1c

Functional Description:

Designed for fast, targeted, air-free intratracheal aerosol administration to mouse

Material:

Stainless steel

General Description:

Functional length from bend to tip: 1.25 in.; angle of bend: 120 deg.; length from hub to bend: 1.0 in.

Type/model Designation:

ia-1c-m

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
