**Universal Medical Device Nomenclature System Code:**

10780

**Maximum Speed Rating In Rpm:**

17000.0

**Product Name:**

Centrifuge laboratory benchtop refrigerated device code 10780

**Special Features:**

Benchtop refrigerated centrifuge is a commercial off-the-shelf (cots) and is portable; used by healthcare personnel during basic lab diagnostic procedures; speed 17, 000 rpm; versatile; used for high speed research applications and routine clinical separations or microcentrifugation

**Supplementary Features:**

Benchtop; refrigerated

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T149-c
