Universal Medical Device Nomenclature System Code:

10780

Maximum Speed Rating In Rpm:

17000.0

Product Name:

Centrifuge laboratory benchtop refrigerated device code 10780

Special Features:

Benchtop refrigerated centrifuge is a commercial off-the-shelf (cots) and is portable; used by healthcare personnel during basic lab diagnostic procedures; speed 17, 000 rpm; versatile; used for high speed research applications and routine clinical separations or microcentrifugation

Supplementary Features:

Benchtop; refrigerated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T149-c
