Terminal Quantity:

2

Terminal Type:

Solder lug

Mounting Type:

Panel

Body Diameter:

2.800 inches

Current Type:

Ac

Mounting Configuration:

Three 0.150 in. Diameter mtg holes spaced at 120 degrees on 1.580 in. Radius

Indicator Type:

Drum register

Voltage Rating:

110.0 volts

Measurement Unit:

Hours

Unit Type:

Mounted

Mounting Flange Diameter:

3.500 inches

Operating Frequency:

60.0 hertz

Movement Type:

Electrical

Body Depth:

2.766 inches

Smallest Increment Indicated:

0.10

Mounting Method:

Flush

Reset Feature:

Not provided

Maximum Measurement:

9999.90

Marking Color:

Black numerals for hours, red numerals for tenths

Background Color:

A/a

Electrical Movement Type:

Synchronous motor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
