Terminal Quantity:

2

Terminal Type:

Threaded stud

Mounting Type:

Flange

Overall Depth:

3.259 inches

Body Diameter:

2.690 inches

Current Type:

Ac

Case Material:

Steel

Mounting Configuration:

Three mtg holes equally spaced on a 3.145 in. Min, 3.175 in. Maximum dia

Indicator Type:

Drum register

Voltage Rating:

120.0 volts

Measurement Unit:

Hours

Unit Type:

Mounted

Mounting Flange Diameter:

3.500 inches

Operating Frequency:

60.0 hertz

Hermetic Protection:

Not provided

Movement Type:

Electrical

Body Depth:

2.396 inches

Smallest Increment Indicated:

0.10

Mounting Method:

Semiflush

Reset Feature:

Not provided

Maximum Measurement:

9999.90

Marking Color:

White numerals for hours, red numerals for tenths

Background Color:

Black

Electrical Movement Type:

Motor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
