Terminal Quantity:

2

Terminal Type:

Solder stud type

Mounting Type:

Panel

Body Diameter:

2.203 inches

Current Type:

Ac

Case Material:

Plastic

Mounting Configuration:

Three 0.125 in. Diameter mtg holes on 1.219 in. Radius spaced 120 degrees apart

Indicator Type:

Drum register

Voltage Rating:

115.0 volts

Measurement Unit:

Hours

Unit Type:

Mounted

Mounting Flange Diameter:

2.688 inches

Operating Frequency:

60.0 hertz

Hermetic Protection:

Not provided

Movement Type:

Electrical

Body Depth:

2.756 inches

Smallest Increment Indicated:

0.10

Mounting Method:

Flush

Reset Feature:

Not provided

Maximum Measurement:

99999.90

Marking Color:

White numerals, red numerals

Background Color:

Black, white

Electrical Movement Type:

Synchronous motor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-r
