Terminal Quantity:

2

Terminal Type:

Threaded stud

Mounting Type:

Flange

Body Diameter:

2.730 inches

Current Type:

Ac

Mounting Flange Width:

3.000 inches

Indicator Type:

Drum register

Voltage Rating:

120.0 volts

Measurement Unit:

Hours

Unit Type:

Mounted

Operating Frequency:

60.0 hertz

Movement Type:

Electrical

Smallest Increment Indicated:

0.10

Mounting Method:

Flush

Maximum Measurement:

99999.90

Marking Color:

Black numeral for hours and tenths of hour

Background Color:

White background on hours and tenths of hour wheels

Electrical Movement Type:

Synchronous motor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
