Terminal Quantity:

1

Terminal Type:

Plug

Mounting Type:

Panel

Overall Depth:

2.500 inches

Overall Height:

1.125 inches

Overall Width:

1.875 inches

Current Type:

Ac

Case Material:

Steel

Indicator Type:

Drum register

Voltage Rating:

115.0 volts

Measurement Unit:

Hours

Unit Type:

Mounted

Operating Frequency:

60.0 hertz

Hermetic Protection:

Not provided

Movement Type:

Electrical

Smallest Increment Indicated:

0.01

Reset Feature:

Not provided

Maximum Measurement:

9999.99

Marking Color:

White numerals for hours, black numeral for tenth

Background Color:

Black background on hour wheels, white background on tenth wheel

Electrical Movement Type:

Synchronous motor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
