Terminal Quantity:

2

Terminal Type:

Threaded stud

Mounting Type:

Panel

Overall Depth:

3.286 inches

Overall Height:

3.000 inches

Overall Width:

3.000 inches

Current Type:

Ac

Case Material:

Plastic

End Application:

Federal pacific electric corporation starter motor

Mounting Configuration:

Four 0.128 in. Diameter mtg holes equally spaced on 2.24 in centers

Indicator Type:

Dial-counter

Voltage Rating:

120.0 volts

Measurement Unit:

Hours

Unit Type:

Mounted

Operating Frequency:

60.0 hertz

Hermetic Protection:

Not provided

Movement Type:

Electrical

Reset Feature:

Not provided

Electrical Movement Type:

Motor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-r
