Case Material:

Aluminum alloy

Indicator Type:

Digital counter

Measurement Unit:

Hours

Unit Type:

Mounted

Hermetic Protection:

Provided

Movement Type:

Electronic

Smallest Increment Indicated:

1.00

Reset Feature:

Not provided

Maximum Measurement:

9999.00

Criticality Code Justification:

Feat

Special Features:

Nuclear hardness critical item; events counter for indicating high, low, or average power applied to the apu

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
