Overall Length:

19.000 inches

Overall Height:

1.750 inches

Overall Width:

17.950 inches

Operating Temperature Range:

+00.0/+50.0 degrees celsius

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Operating Control Method:

Automatic

Installation Design:

Rack

Control Type:

Local

Circuit Construction Type:

Solid state

Operating Ac Frequency In Hertz:

47.0 single voltage and 440.0 single voltage

External Ac Operating Voltage In Volts:

90.0 single voltage and 240.0 single voltage

Features Provided:

Internal battery accommodation

Phase:

Single

Special Features:

Operating environment 60-80 degrees f, 40-80% humidity. Supplier name time code generator pts

Functional Description:

Dual function time code generator and translator; model 9700at and 2 opt 04b multispeed bc (d-hms) and opt 21 synchronized tcg

Relationship To Similar Equipment:

Same basic model 9700 with different options as 6645-14570158

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
