Current Type:

Ac

Switch Type:

On-off

End Application:

Portable preservative flushing system

Timer Type:

Electrical

Automatic Electric Circuit Control Switch:

Included

Control Switch Voltage In Volts:

120.0

Current Rating:

10.000 amperes

Control Switch Outlet Tap Location:

Any acceptable

Interval Expiration Signalling Device:

Not included

Dial Minimum Graduation:

3 sec

Independently Operated Clock:

Not included

Product Name:

Multi-function, high precision automatic reset timer

Voltage In Volts:

120.0

Special Features:

time cycle is 5 min., time cycle is 9 sec; features four sets of switch contacts; virtually dust and moisture proof; operates over a very wide temp range

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T270-d
