Mounting Type:

Flange

Current Type:

Dc

Mounting Flange Width:

1.312 inches

Case Material:

Any acceptable

End Application:

Band 9/10 tra; aircraft, prowler ea-6b

Flange Height:

0.890 inches

Voltage Rating:

5.0 volts

Unit Type:

Mounted

Hermetic Protection:

Provided

Movement Type:

Electrical

Reset Feature:

Not provided

Maximum Measurement:

99999.99

Product Name:

Meter, time totalizing, miniature, digital, 5 vdc, square

Special Features:

3voltage range: 4.5 to 10 vdc; operating temperature range: -65 degrees to +125 degrees c; mounting flange, threaded extension, threaded protection cap made of aluminum alloy with olive drab chromate coating over cadmium plating; nylon lanyard included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T134-r

Mil-std (military Standard):

Mil-m-7793 spec.
