Mounting Type:

Panel

Overall Height:

1.020 inches

Current Type:

Ac

Body Width:

1.920 inches

Case Material:

Polyamide nylon

End Application:

Control panel, compressor 487000

Indicator Type:

Digital counter

Voltage Rating:

120.0 volts

Measurement Unit:

Hours

Unit Type:

Mounted

Scale Range:

+0.0/+999999.9 hour

Operating Frequency:

Between 50.0 hertz and 60.0 hertz

Hermetic Protection:

Not provided

Movement Type:

Electronic

Body Depth:

1.720 inches

Mounting Method:

Semiflush

Reset Feature:

Provided

Product Name:

Inavy)hourmeter (drawing)compressor control panel assembly(487000)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
