End Application:

Visualize desk top hpc3600

Operation Method:

Electronic operated

Timer Type:

Electrical

Display Type:

Liquid crystal

Product Name:

Inavy)real time clock

Voltage In Volts:

5.0

Special Features:

64 bit sylicon serial number; power control circuitry; 32khz output; crystal select bit allows rtc to operate with 6pf or 12.5pf crystal; smi recovery stack; 242 bytes battery backed nv ram; aux battery input; ram clear input; century, date, alarm register; timekeeping algorithm includes leap year compensation valid through 2099

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T270-d
