Overall Height:

24.0 millimeters

Current Type:

Dc

Body Length:

36.6 millimeters

Case Material:

Plastic

End Application:

426-7403887-00 (07070), nav processor unit; 426-7403873-002(07070) , keyboard, universal

Indicator Type:

Digital counter

Voltage Rating:

Between 12.0 volts and 48.0 volts

Measurement Unit:

Hours

Body Depth:

21.0 millimeters

Reset Feature:

Not provided

Maximum Measurement:

99999.90

Special Features:

Display: 6 digit lcd; operating temperature: -40 to 85 degrees celsius; non-backlit display

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
