Body Length:

2.610 inches

Body Width:

1.280 inches

Mounting Flange Width:

2.830 inches

Flange Height:

1.400 inches

Indicator Type:

Digital counter

Body Depth:

0.820 inches

Mounting Method:

Semiflush

Reset Feature:

Provided

Product Name:

Totalizer, elapsed time indicator, hourmeter

Special Features:

Display - 8 digit lcd; power source - internal lithium battery; temp range - 0 degrees c to 75 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
