Body Width:

2.840 inches

End Application:

Eurofighter hydraulic pump test rig

Movement Type:

Electronic and mechanical

Reset Feature:

Not provided

Product Name:

Model 710 electromechanical hour meter

Special Features:

8 inch wire leads; 115 volts ac, 60hz plus or minus 10 percent input voltage; lexan case; bracket mount; panel, 3h ole mounting; weighs 6 ounces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
