Terminal Quantity:

2

Terminal Type:

Solder lug

Body Diameter:

52.2 millimeters

Body Length:

52.7 millimeters

Overall Diameter:

55.5 millimeters

Case Material:

Plastic

Inscription Color:

White

Inscription Background Color:

Black

Indicator Type:

Digital counter

Voltage Rating:

Between 12.0 volts and 24.0 volts

Measurement Unit:

Hours

Unit Type:

Portable

Hermetic Protection:

Not provided

Movement Type:

Electrical

Dial Diameter:

55.5 millimeters

Smallest Increment Indicated:

0.00

Reset Feature:

Not provided

Maximum Measurement:

99999.90

Marking Color:

White numerals for hours, red numerals for tenths

Background Color:

Black background for hours, whitebackgraound for tenths

Product Name:

Engine hourmeter, vision non-illuminated 12 - 24v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-r
