Product Name:

Spectrometer, nuclear magnetic and electron spin resonance

Special Features:

Power 115 vac, 50/60 hz, single phase; consists of oscillator, low noise radio frequency detector, high gain amplifier, ten sample holders, 250 milligrams of dpph and calibration chart

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-d
