Diameter:

1.320 inches

Thickness:

0.105 inches

Bevel Depth:

Between 0.005 inches and 0.010 inches

Reflective Backing Material:

White metal

Reflection Reducing Surface:

One

Beveled Edge Location And Quantity:

1 back outside edge

Bevel Angle In Deg:

45.000

Special Features:

0.128 in. Diameter hole in center

Material:

Copper

Material:

Copper

Fsc Application Data:

Guided missile remote control system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-f
