Special Features:

C/o rotatable quartz window; water cooling chamber; sapphire specimen carrier; centering keys; regulating transformer, w/ammeter, 0 to 12 v, 18 a; temperature reading instrument; centering device; temps up to 1350.0 degrees c; parallel alignment of specimens

Reference Number Differentiating Characteristics:

As differentiated by regulating transformer w/ammeter part no. 500054, temperature reading instrument part no. 515061

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-a
