Width:

1.090 inches

Thickness:

0.125 inches

Length:

1.343 inches

Bevel Depth:

0.094 inches

Reflective Backing Material:

Aluminized

Reflection Reducing Surface:

One

Beveled Edge Location And Quantity:

Rectangular, 1 short edge beveled

Bevel Angle In Deg:

45.000

Material:

Glass, dd-g-451, type 1

Material:

Glass plate

Material Specification:

Dd-g-451, type 1 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-f
