Width:

0.469 inches

Thickness:

0.063 inches

Length:

1.180 inches

End Application:

Mount, telescope, m145

Bevel Depth:

0.031 inches

Reflective Backing Material:

Chromium, qq-c-320, class 1, type 1

Beveled Edge Location And Quantity:

4 edges beveled

Bevel Angle In Deg:

45.000

Material:

Steel, qq-s-766, class 4, cond a

Material:

Steel comp 301

Material Specification:

Qq-s-766, class 4, cond a federal specification single material response

Fsc Application Data:

Mount telescope, t208

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T271-f
