Diameter:

Between 19.8000 millimeters and 20.2000 millimeters

Length:

Between 1.900 millimeters and 2.100 millimeters

Scale Calibration:

0 to 9 mm

Graduations/markings:

Grid type w/circular graduations

Material:

Glass

Style Designator:

Crossline

Supplementary Features:

Material glass 7740, corning glass works

Fsc Application Data:

Radar test set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A530t0
