**General Description:**

Full scale for refractive index is 1.3330 to 1.3730 for salinity, 0-160 ppt 0/00, refractive index is read directly to .0002, easily estimated to .0001, no set up time required, no more than one drop of solution is needed 0.02 ml, hand type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/ml

**Fiig:**

A23900
