Optical Element Spacer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6650-01-082-3801

Overall	Length:
o roran	Longui

0.4974 inches

Body Outside Diameter:

1.120 inches

End Application:

M901

Taper Bore Major Diameter:

1.000 inches

Taper Angle:

18.0 degrees

Special Features:

Spacer-no. 2, wide angle objective; black, 2 equally spaced slots on tapered bore end, 0.060 in. Wide by 0.050 in. Deep; establish length by

measuring separation between reference sphere 5.666 in. Radius and surface a (reference radius located 0.4753 in. From edge a)

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/8, t651 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
