Overall Length:

0.517 inches

Body Diameter:

Between 2.747 inches and 2.748 inches

End Application:

M901

Flange Width:

0.100 inches

Taper Bore Minor Diameter:

2.140 inches

Taper Angle:

30.0 degrees

Special Features:

Spacer-no. 4, eyepiece; black; 4 slots 0.060 in. Wide by 0.050 in. Deep; each end contains 2 equally spaced slots; 45 degrees between the opposite end slots; establish length by measuring separation between reference sphere 1.275 in. Radius and surface b (reference radius located 0.065 in. From edge b)

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/8, t651 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
