## **General Description:**

Has a precentered tungsten filament & externally variable bias control; eucentric goniometer speciman stage w/ speciman exchange airlock; x-movement: 15 mm, y-movement: 25 mm, z-movement: 31 mm, rotation: 360 degrees endless, tilt: 0-90 deg; gun isolation valve **Shelf Life:** 

N/a

**Unit Of Measure:** 

--

Demilitarization:

Yes - demil/mli
