**Diameter:**

Between 1.399 inches and 1.401 inches

**End Application:**

Detecting set, infrared; an/aaq-15

**Axial Thickness:**

Between 0.146 inches and 0.154 inches

**Single Lens Style:**

Meniscus

**Element Left Surface Radius:**

3.6766 inches

**Element Right Surface Radius:**

4.040 inches

**Special Features:**

Mlar 306 coating

**Material:**

Germanium

**Material:**

Germanium

**Supplementary Features:**

Lens no 2, wide field of view

**Fsc Application Data:**

Combat talon ii

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T271-e
