Diameter:

Between 1.399 inches and 1.401 inches

End Application:

Detecting set, infrared; an/aaq-15

Axial Thickness:

Between 0.146 inches and 0.154 inches

Single Lens Style:

Meniscus

Element Left Surface Radius:

3.6766 inches

Element Right Surface Radius:

4.040 inches

Special Features:

Mlar 306 coating

Material:

Germanium

Material:

Germanium

Supplementary Features:

Lens no 2, wide field of view

Fsc Application Data:

Combat talon ii

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-e
