gg
Diameter:
Between 1.399 inches and 1.401 inches
End Application:
Detecting set, infrared; an/aaq-15
Axial Thickness:
Between 0.146 inches and 0.154 inches
Single Lens Style:
Meniscus
Element Left Surface Radius:
3.6766 inches
Element Right Surface Radius:
4.040 inches
Special Features:
Mlar 306 coating
Material:
Germanium
Material:
Germanium
Supplementary Features:
Lens no 2, wide field of view
Fsc Application Data:
Combat talon ii
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
Yes - demil/mli
Filg:
T271-e
