Width:

4.725 inches

Thickness:

0.003 inches

Length:

6.000 inches

Bevel Depth:

0.120 inches

Reflective Backing Material:

Black oxide, mil-c-13924, class 4

Reflection Reducing Surface:

One

Beveled Edge Location And Quantity:

All four corners

Bevel Angle In Deg:

45.000

Material:

Steel, qq-s-766, class 302, cond a

Material:

Steel comp 302

Material Specification:

Qq-s-766, class 302, cond a federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-f
