End Application:

Used on abg272 v34

Accessory Components And Quantity:

Flange, journal assembly 1; ring 2; spacer 1

Eccentric Construction:

Not provided

Optical Element Quantity:

3 and 2

Optical Element Type:

Single lens

Optical Element Controlling Agency:

Army

Optical Element Identifying Number:

12309669 part no. And 12309667 part no.

Special Features:

Prime using mil-s-22473, grade t, form r, and retaining compound, mil-s-46163, type 2, group m

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
