Lamp Quantity:

1 and 1 and 1 and 1

Accessory Components And Quantity:

S-12 aa spectrometer 1; ctf188 controlled temp furnace atomizer 1; thermospec aa software update with computer (incl ref beam option, coolant recirculator, 24-pen graphics printer) 1; ps 150 prep station 1; tja 150 autosampler 1; aerosol depositon system 1; flame drawer option 1; atomic vapor accesory 1; pressure regulator & hose kit, nitrous oxide 1; 3 hollow cathode lamps: cadmium, silver, copper 1; 4-lamp turret 1; blower/vent assembly 1; air regulator/filter assembly 1; acetylene regulator 1; argon regulator 1; nitrous oxide burner head 1

Design Designation:

Thermo jarrell ash

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T271-d
