Width:

1.300 inches

Thickness:

1.369 inches

Length:

1.838 inches

End Application:

Lantern system

Reflective Backing Material:

Aluminum alloy

Special Features:

Elliptical mirror; beveled edges; clear aperture greater than 80 percent

Material:

Glass, borosilicate

Material:

Glass, borosilicate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-f
