End Application:

An/aar-44

Special Features:

Narrow band spectral filter; peaktransmission greater than 50 percent; spectral transmission of filter shall be within plus or minus 5 percent of the true value in the spectral band; used for fault testing of eda-cooler assembly pn 628426 in the sensor unit of the an/aar-44

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T205-a
