End Application:

Sk 5840-01-229-1276 radar set

Accessory Components And Quantity:

Sun shade

Scale Calibration:

Graduations at 50, 100, 200, 400 yds. To infinity

Bracket:

Provided

Focusing Type:

Adjustable

Optical Device Type:

Lens

Objective Aperture Diameter:

2.0 inches

Magnification:

12.0x

Straight Typelength:

13.000 inches

Scale Markings:

Provided

Special Features:

Nitrogen pressurized for aligning radar antenna

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-a
