Diameter:

3.800 inches

Length:

4.100 inches

Specific Use:

Any acceptable

End Application:

6650-01-392-4913

Lens Focal Length:

460.0 millimeters

Focusing Range:

43cm

Product Name:

Original nomenclature: cell assembly, optical instrument

Special Features:

Matched to lenses 7010468-003 and 7010468-014 and associated equipment

Functional Description:

Used in the testing of multifunction display (r/n 8516223) and hud on c17 acft

Supplementary Features:

Apperture f9, magnification 0.33, measurement accuracy 1.8%, measurement area 6.0" sq

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T150-f
