Width:

0.550 inches

Thickness:

0.175 inches

Length:

1.300 inches

End Application:

Thermal sight system.

Reflective Backing Material:

Aluminized

Beveled Edge Location And Quantity:

4 all sides.

Special Features:

Mirror no. Xii; element iaw mil-o-13830, class 2, fine annealed.

Material:

Glass, optical

Material:

Glass optical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T271-f
