Width:

1.330 inches

Thickness:

0.130 inches

Length:

3.800 inches

End Application:

An/bqn-17 ec; la class ssn

Polished Periphery:

Not provided

Special Features:

Light trans.- 50 pct at 643 nanometers; emi shielded, attenuation- 60db min. Up to 10 hnz.

Material:

Plastic and steel, corrosion resisting

Material:

Plastic and stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-f
