Outside Diameter:

0.375 inches

Overall Length:

8.000 inches

End Application:

Borescope inspection of f117-pwa-100 high bypass turbofan engines; c-17aircraft

End Connection Type:

Threaded male first end

Product Name:

Manufacturers name is tube, guide-engine assembly, borescope, hpc 10th stage stator

Special Features:

Lused to guide fiberscope for inspection of the 10th stage hpc stators; guide tube is designed for 5mm (or less) diameter flexible fiberscopes; the guide tube is flexible with a 120 degree bending radius for aiding the fiberscope to negotiate the near 90 degree bend between the ap-5 port and the 10th stage stator inner platform; weight 1lb; operating temperature -40 to +125 degrees f; finish passivated; braided stainless steel tubing; brass end fitting; height is 1 inch

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524s0
