Diameter:

1.000 inches

End Application:

Pn 717763919-009 table assembly, lfts

Special Features:

9travmittal wave front 1540nm, surface quali type 5-10 research grade poly, paralellism less than 0.5 sec of arc, retardation tolerance: polarization state puri type 99% at design wavelength, antireflection coating: r<0.25% per surface, central 85% of diameter

Material:

Quartz

Material:

Quartz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T271-e
