Diameter:
1.000 inches
End Application:
Pn 717763919-009 table assembly, Ifts
Special Features:
9travmittal wave front 1540nm, surface quali type 5-10 research grade poly, paralellism less than 0.5 sec of arc, retardation tolerance:
polarization state puri type 99% at design wavelength, antireflection coating: r<0.25% per surface, central 85% of diameter
Material:
Quartz
Material:
Quartz
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T271-e
